DATE **JUL 16 1953**

SUBJECT **GENERAL VULTURE**
SPECIFIC VULTURES E and I

① Funeral of an Agent (unclassified - Germany)
REFERENCE: BOQW-4247, 10 February 1953

1. Your reports on VULTURES Q and R arrived in excellent time, EGFA-1346 (18 June) and EGFA-1354 (23 June) appearing in this office on 1 and 2 July. The contents, however, do not produce as much happiness as the speed of transmission.

2. Both operations described in these memoranda were accomplished in October 1952. Allowing for photo development, map drawing and other pertinent items as well as for assorted demands on the working time of [] and [], we still cannot fathom the lapse of eight months between accomplishment and report.

3. Your attention is drawn to reference headquarters memorandum, querying you for details on VULTURES A, J, and N. Data on N has been received. We have been waiting approximately five months for your reply on the other two.

4. Possibly there are sound reasons for these lags. If so, we shall be glad to hear them and make due allowance in the future. Please give us your situation on this, at the same time furnishing the material requested last February or the reasons why you are unable to do so.
